Engineering Fascination

Engineering Fascination – this is both our drive and our promise. As a German manufacturer of event technology, we develop solutions that are as precise as they are powerful – across integrated systems, music equipment, live events and industry.

What drives us is fascination: for engineering, for ideas, for achieving great things together. With a broad portfolio, true engineering expertise, and dedicated services that turn technology into partnership, we support our customers worldwide – efficiently, reliably and as equals.

P6

HIGH OUTPUT FULL-SPECTRUM ELLIPSOIDAL

- 600 W RGBALC LED (RGB, Amber, Lime, Cyan)
- 16,000 lm luminous flux replaces conventional 2.5 kW halogen profile lights
- High CRI (98 @ 5,600 K) and TLCI (94 @ 5,600 K) for natural colour rendering
- Seamless colour temperature adjustment from 1,800 K to 10,000 K
- 360° rotatable four-blade framing system, manually operated zoom range (5° - 50°) and additional focus

Item No.:
CLP6

cameolight.com/P6

AZOR[®] SP2 IP

COMPACT IP65 SPOT PROFILE MOVING HEAD

- IP65 Spot Profile Moving Head with 300 W LED and 11,100 lm output
- Motorised framing blades on four levels (+/- 60° swivelling)
- Zoom range: 3° - 51°
- CMY colour mixing and additional colour wheel with 8 dichroic colour filters
- Linear CTO for colour temperature modulation in lighting setups

Palmer[®]

be true to your sound

Palmer® began as a small German custom manufacturing company and has since become a renowned international brand for audio engineers and musicians. Since 1980, we have been crafting professional audio tools for use on stage, in broadcast, and in recording studios.

Our diverse product range now includes speaker simulators for tone enthusiasts, innovative pedalboards and power supply systems, studio monitors, monitor controllers, and reliable audio tools like DI boxes, line isolators, splitters, and mergers.

Our dedication to pristine audio signal integrity, accuracy and attention to detail is our hallmark, all while adhering to our motto: **"Be true to your sound."**

Gravity® 

take the stage

Gravity® Stands are at home wherever you are – on concert stages, in studios, theatres, on TV sets, or at your desk.

The award-winning brand offers musicians, live technicians and content creators a comprehensive range of innovative stand and accessory solutions that ensure microphones, speakers, lights, instruments, tablets and much more to stay exactly where you need them. Gravity® Stands combine the most essential requirements for any application: sturdiness and reliability, smart features and stylish design. From sophisticated mounts for tablets and action cameras to the Touring Series for the professional rental market, Gravity's comprehensive portfolio puts a loyal companion at every user's side.

One thing that all Gravity® products have in common, is their easy and efficient handling. Straight out of the box, you'll feel connected with your new Gravity® gear.

YOUR POWER TO
CONNECT

The veins in your body are absolutely essential for life. They serve as the conduit for oxygen, transporting it from the lungs to all parts of your system, much like how cables facilitate the transmission of signals in event technology.

Cables – acting as the crucial link between all devices – are indispensable for ensuring the seamless operation of shows, fairs, and installations. Whether it's the connection from your guitar to the amplifier, your mixing console to the sound system, or your lighting controller to the lamp, cables are undeniably the unsung heroes of any event.

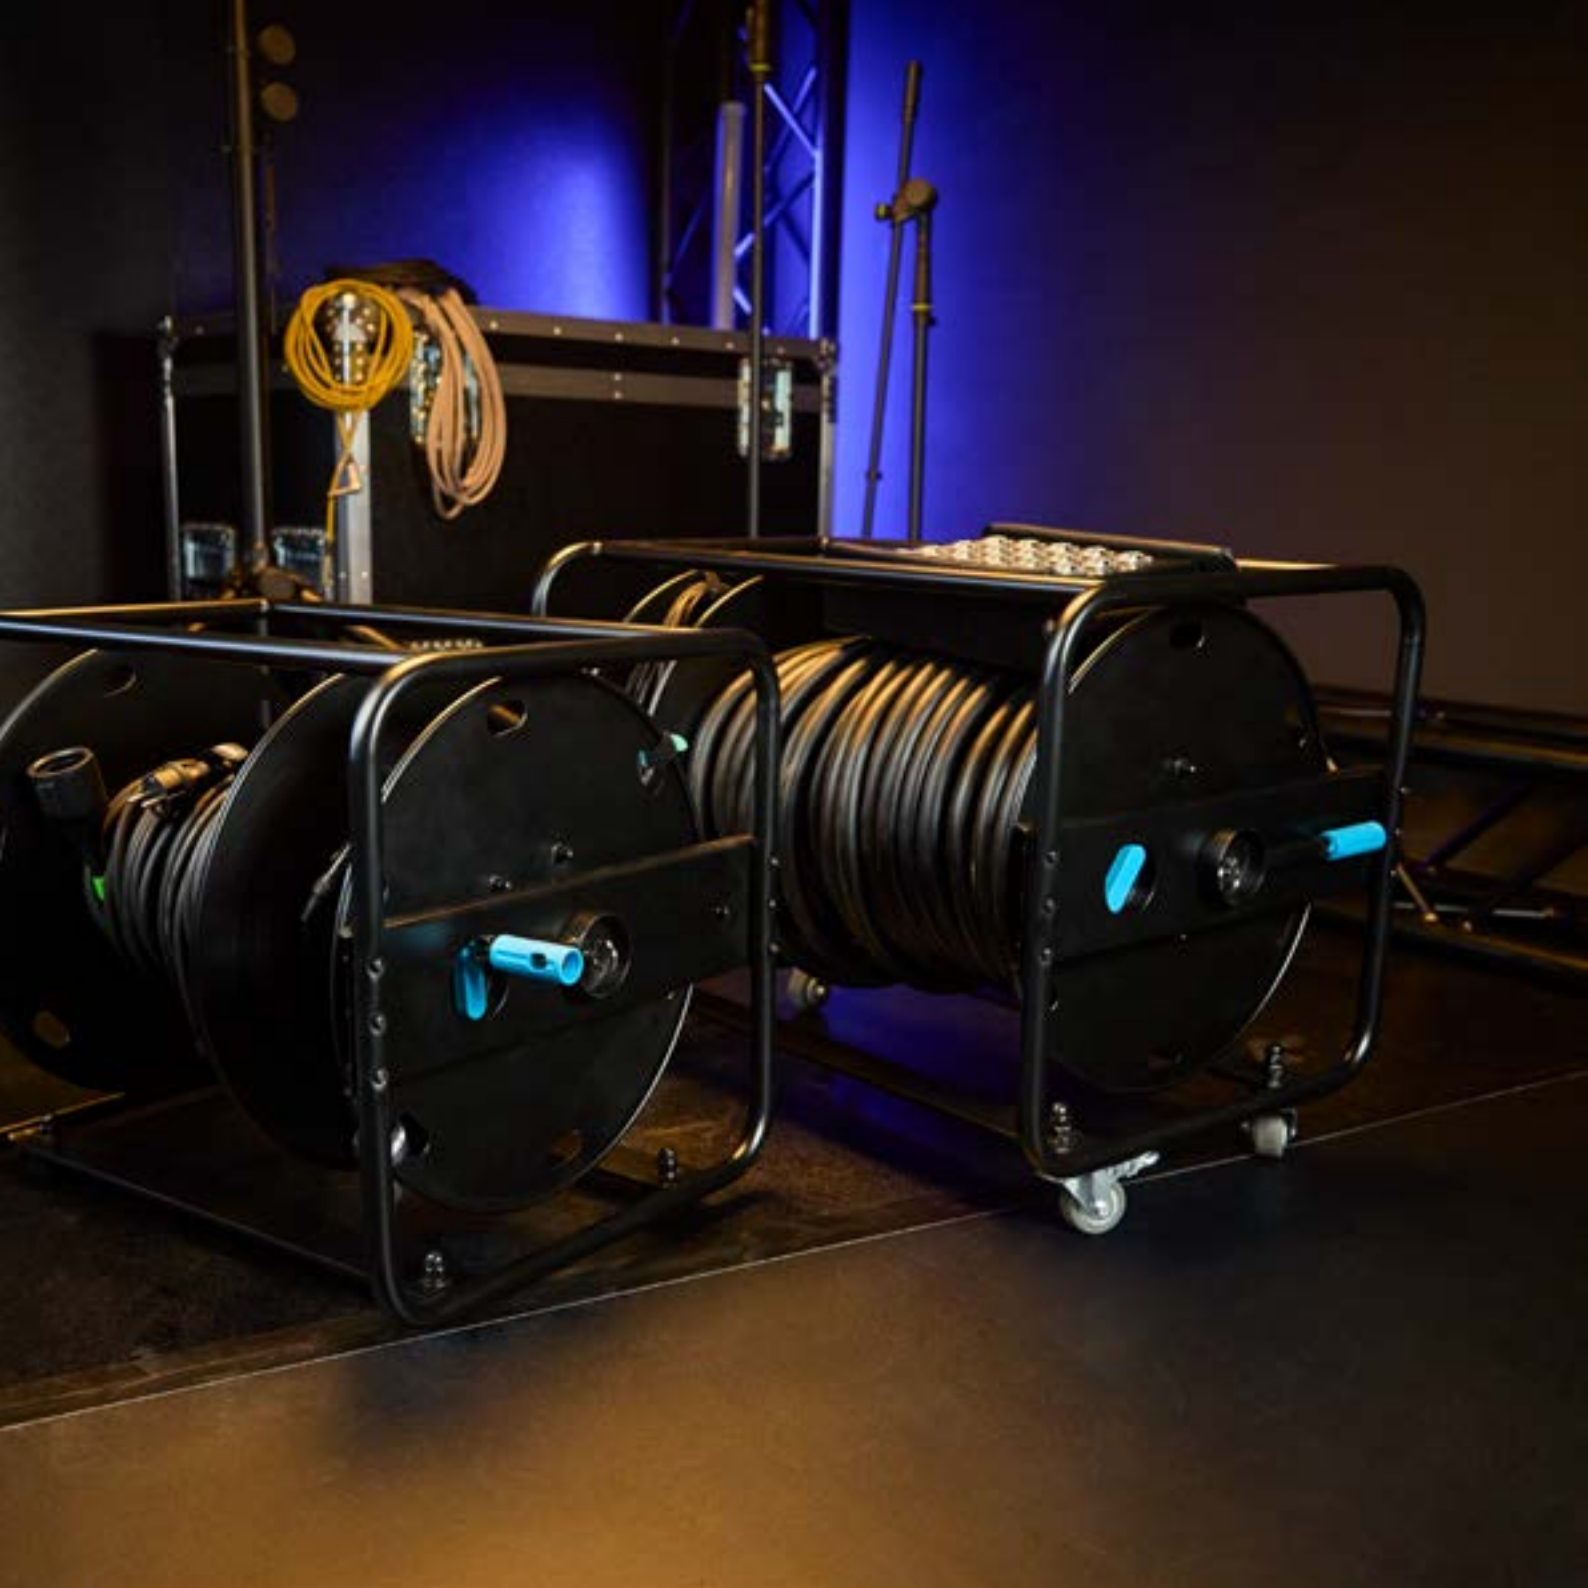

Adam Hall Cables is on a mission that goes beyond connecting devices; it's about fostering connections between people.

We offer an extensive range of cables, cable drums, power strips, and accessories designed for various applications. Our product range is thoughtfully structured, offering a wide spectrum of quality levels, making it easy for you to find your perfect cable quickly. Navigating through the jungle of cables can be challenging. We provide straightforward and effective solutions to simplify the process for you. For example, we have introduced the Adam Hall Cable Finder on our website. Simply select your desired connectors and embark on a journey through the world of cables! Our commitment to connecting people extends to providing you with invaluable strategies. Another user-friendly tool we offer to help you select the right cable is our STAR SERIES system. With its familiar and intuitive designed structure, it offers an instant overview of the quality levels associated with different products.

DEFENDER[®]

PROTECT YOUR WORLD!

If you organise events, you know you have a special responsibility for both people and equipment. Cables and hoses are easily damaged and can quickly become trip hazards. Whatever the environment – be it industrial halls, construction sites, trade fairs, or on film and television sets – those responsible within the industry, our public institutions, civilian rescue services, fire brigades and the military must find the most effective way to protect the working environment.

DEFENDER® cable protectors are the German-made solution that feature an innovative, non-slip surface design. They protect cables and hoses at different load levels, including protection from – and providing accessibility to – heavy goods vehicles. Our highly robust cable protection systems are made of particularly hard-wearing, recyclable TPU (thermoplastic polyurethane). They meet the highest quality standards and are easy to use, thanks to their secure locking lids and self-cleaning hinges. All DEFENDER® products are regularly tested and approved by TÜV-SÜD.

DEFENDER® also offers custom-made products and system solutions to meet unique individual requirements.

Experience Center Home of Fascination

The Adam Hall Group Experience Center at our headquarters in Neu-Anspach, Germany, which opened in 2018, is a source of inspiration, a think tank and a co-working space all in one - not just for us, but for the entire event industry. This is where we look into the future of events together with you, our partners, customers, and experts and where we can enjoy open dialogues about technology, trends and everything that moves us when it comes to events.

Inside the Experience Center, future-oriented solutions for music equipment, integrated systems, live events and industrial applications are being developed, tested in our laboratories, and presented to you right here – in our permanent showroom, or even in our sizeable auditorium. Yet it is also home to so much more: besides the prototypes of the future, it also houses countless historical collector's items from several decades of music and event tech history.

Since 2023, you have the opportunity to experience the Adam Hall Group "Surround Experience" exclusively in our German Experience Center. The synergy of audio and light with the products of our brands LD Systems and Cameo was created in collaboration with the German Film Orchestra Babelsberg and Simple Minds producer and sound engineer Peter Walsh.

By inviting you to visit us we want to share a piece of our passion and creativity with the world. Whether it's at our Experience Center, a trade show, or any other event, let's come together!

Product Areas

We engineer technology for unforgettable events, turning spaces into experiences that make lasting memories. Our expertise is both highly specialized and widely applicable—shaped with precision and made to inspire across boundaries.

Integrated Systems

Every space deserves a soul. Our systems don't just blend into the architecture, they bring it to life. With sound that speaks, light that leads, and control that shapes the experience, we design Integrated Systems that give places their voice. Controllable, to guide emotions.

adamhall.com/integrationsystems

Music Equipment

We know what it means to create music. That's why we engineer gear for the ones who turn emotion into sound. Our products don't just support the moment, they become part of the performance.

adamhall.com/musicequipment

Live Events

Live events move us as individuals and carry us together. Our mission is to amplify those emotions, with light that fuels the crowd and sound that speaks louder than words. Because those shared moments are the ones we never forget.

adamhall.com/liveevents

Industry

We want to protect what matters the most to us: people and technology. Every flight case, every cable protector, every industrial solution is built as a promise—strong, reliable, and unbreakable.
