

Performer CW Mini Jumbo HG Presys II

sku: 051960

The Seagull Performer CW Mini-Jumbo Flame Maple, as with all Performer models, features beautiful Flame Maple back & sides, a Select Pressure Tested solid spruce top, Custom Polished High-Gloss finish, and onboard electronics with built-in tuner. The Mini-Jumbo provides an excellent full-range of tone including a lively mid-range due to the combination of a larger lower bout, a more narrow waist and slightly thinner body depth. The electronics on the Seagull Performer series guitars include a built-in tuner and are a standard feature on these models. This combined with a cutaway and Seagull embroidered gig-bag makes for a great package for the gigging musician.
