WOLF HOFFMANN MODEL

With the Wolf Hoffmann model from the Framus Artist Line Breaker and Shark Series, you get the raw power of the Accept guitarist directly into your hands. This six-string electric guitar in the distinctive V-shape is far more than just a visual statement - it's a highly efficient sound machine, meticulously tuned for high-performance. A instrument for musicians who value quality, innovation, and a unique sound. This guitar is not merely an instrument but a tribute to one of Germany's most influential guitarists - built for musicians who refuse to compromise.

Wolf Hoffmann

SOLID OVERLAND GRAY
HIGH POLISH

BREAKER SERIES

Combines the highest level of craftsmanship with innovative technology. This signature model from the Breaker Series impresses with a powerful, clear sound and excellent playability. The poplar body, combined with the sturdy maple neck, ensures a balanced tonal character, while the composite fretboard with acrylic block pyramid inlays and fluorescent Luminlay along the fretboard edge facilitates orientation during stage performances.

SHARK SERIES

The heart of the construction is a resonant mahogany body combined with a set neck made of flamed maple. Thanks to the C-profile neck the guitar offers an incomparably smooth playing feel across the entire 25.5" scale length. The „Tigerstripe“ ebony fretboard is not only visually stunning with its mother-of-pearl block pyramid inlays. In terms of sound, this signature guitar focuses on maximum versatility and assertiveness.

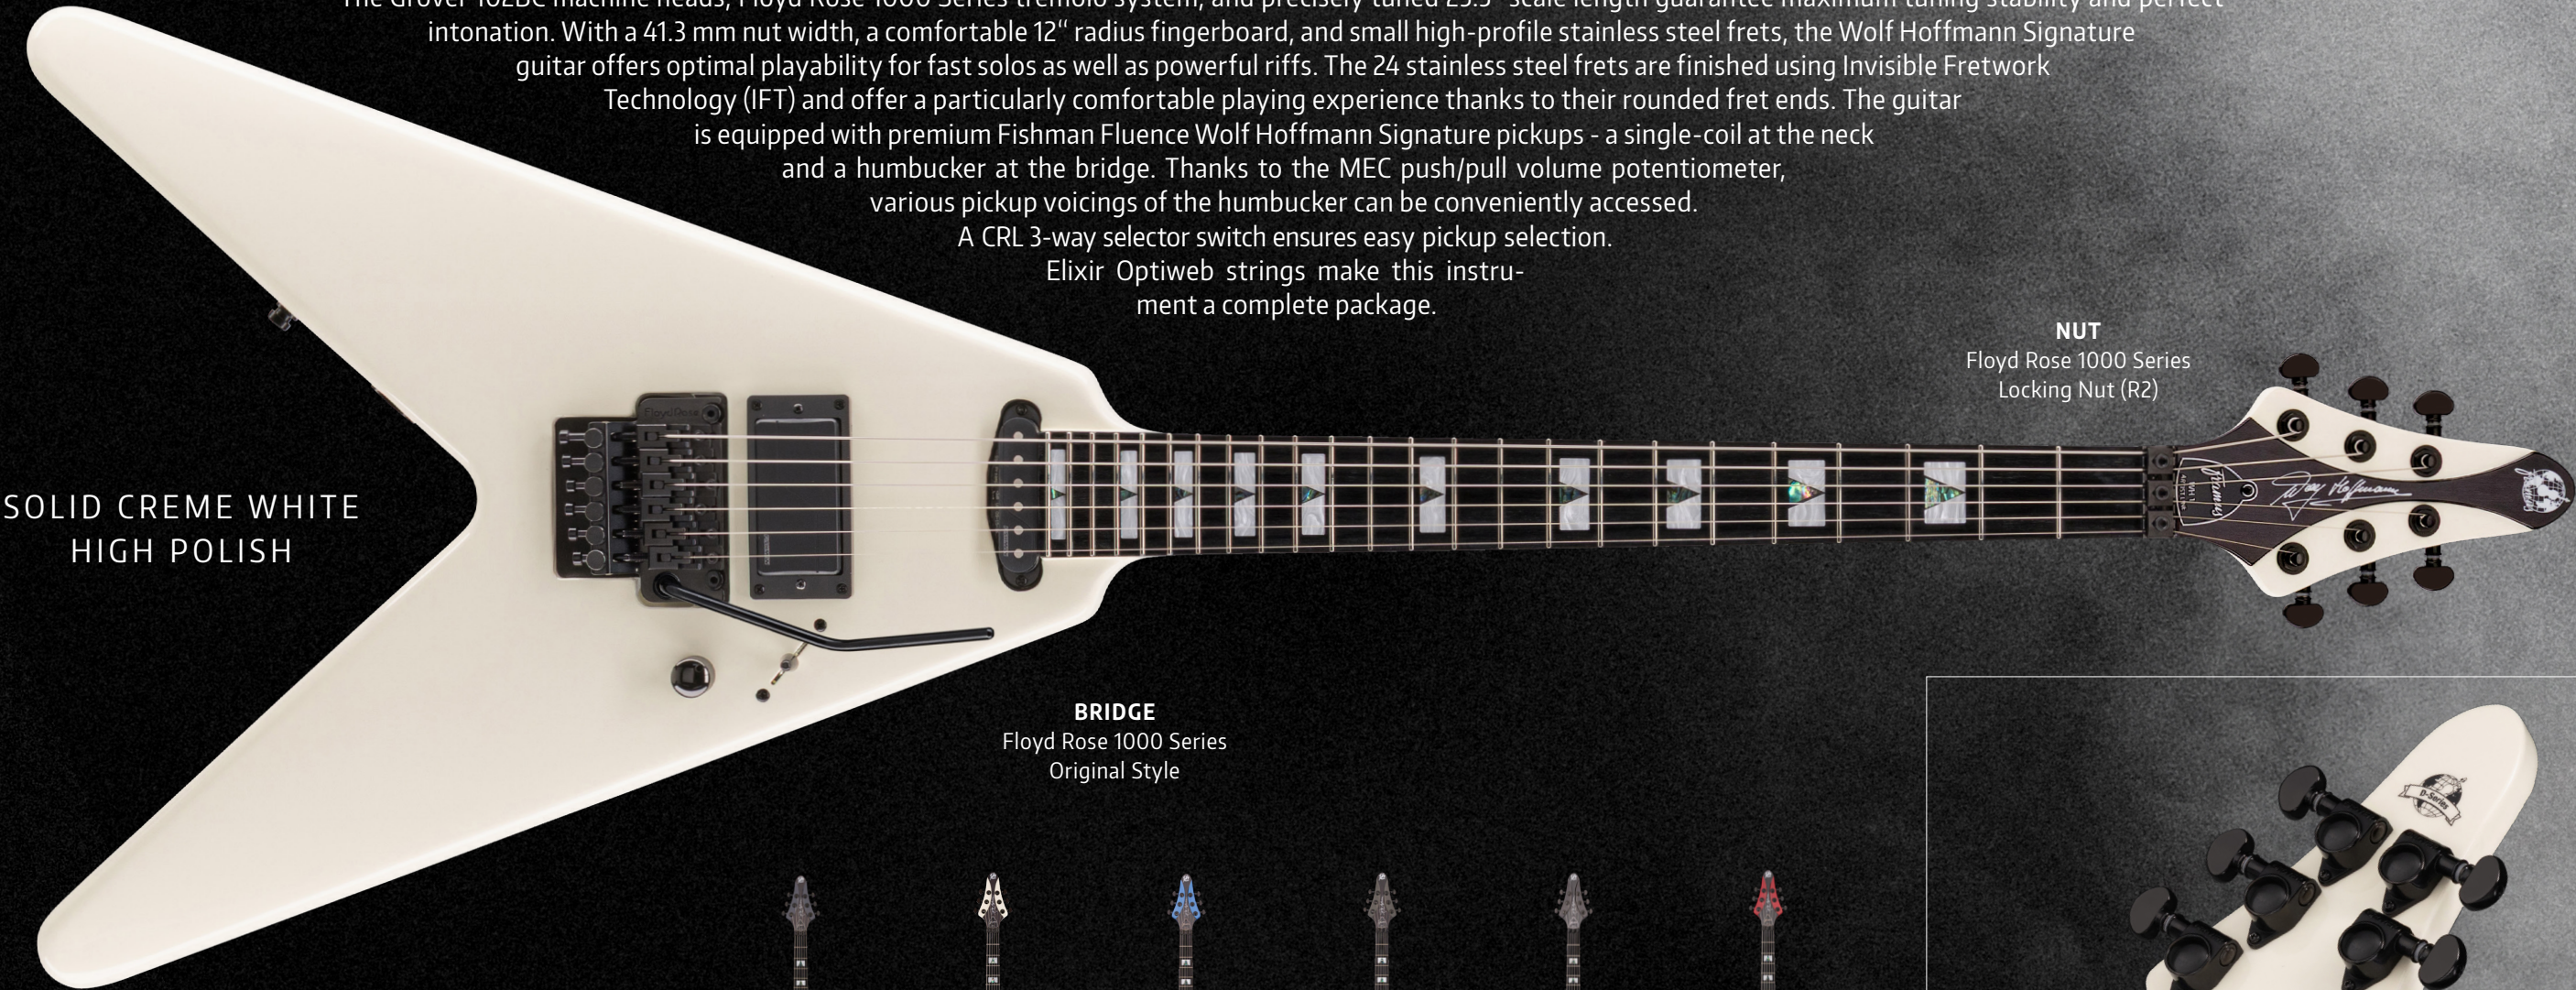

WH-1 BREAKER SERIES

WITH FLOYD ROSE

The Grover 102BC machine heads, Floyd Rose 1000 Series tremolo system, and precisely tuned 25.5" scale length guarantee maximum tuning stability and perfect intonation. With a 41.3 mm nut width, a comfortable 12" radius fingerboard, and small high-profile stainless steel frets, the Wolf Hoffmann Signature guitar offers optimal playability for fast solos as well as powerful riffs. The 24 stainless steel frets are finished using Invisible Fretwork Technology (IFT) and offer a particularly comfortable playing experience thanks to their rounded fret ends. The guitar is equipped with premium Fishman Fluence Wolf Hoffmann Signature pickups - a single-coil at the neck and a humbucker at the bridge. Thanks to the MEC push/pull volume potentiometer, various pickup voicings of the humbucker can be conveniently accessed.

A CRL 3-way selector switch ensures easy pickup selection.

Elixir Optiweb strings make this instrument a complete package.

WH-1 SHARK SERIES

WITH FLOYD ROSE

The hardware leaves nothing to be desired: The Floyd Rose 1000 Series Original Style tremolo system, in combination with the Floyd Rose 1000 Series R2 locking nut and Grover 502BC locking machine heads, guarantees exceptional tuning stability and optimal vibration transfer. The innovative Invisible Fretwork Technology, with its perfectly rounded stainless steel frets, ensures flawless playability, while the fluorescent Luminlay side dots on the fretboard edge guarantee you always have a clear view, even on the darkest stages. Equipped with the Fishman Fluence Wolf Hoffmann Signature Set - a single-coil in the neck position and a humbucker in the bridge position - it delivers the potential for razor-sharp riffs and soaring leads. The MEC push/pull volume pot allows you to switch the humbucker's voice mapping, opening up a wide range of tonal possibilities. A high-quality CRL 3-way switch provides precise pickup control. Factory-strung with Elixir Optiweb strings, the WH-1 is ready for studio and stage use.
